

## YOUNG EXPLORERS CAMP PROGRAM

The Young Explorers Camp program is an exciting opportunity for children ages 3-6 to spend their summer with their friends- old and new- participating in a variety of fun and educationally enriching indoor and outdoor activities, including water play, arts and crafts, sports, games... and much more! We will get them thinking, moving, exploring and collaborating in a relaxed supportive environment.

## STEAM SUMMER OF LEARNING & FUN WEEKLY PROGRAM

Kids ages 6-10 enrolled will have the unique opportunity of learning and collaborating with peers, educators and industry professionals in the fields of art and sciences. Over a stimulating 10 weeks they will learn to code and build robots, devise science experiments, interact with animals and explore nature, develop their own business and expand their artistic and creative selves. It is a fun and rewarding experience.

Week 1: Digital Photography and Video

Week 2: K'Nex Engineering

Week 3: Nature Exploration (Environmental Science)

Week 4: Ceramics

Week 5: Young Inventors (Dream, Innovate and Create your own products; Market and Sell them to other campers)

Week 6: Dash & Dots Robotics

Week 7: Crazy Chemistry

Week 8: Art Galore

Week 9: Animal Science (Chickens, rabbits, guinea pigs and more! Learn about their life cycles, Learn how to care for each one, and Have special visitors with many more animals!)

Week 10: Video Class (Create, Direct, Film, Edit and Star in your own movie)

Unlike the Summer Montessori Instruction, this program provides complete flexibility to choose specific weeks of enrollment.
