Young Explorers Camp Program:

Spark Curiosity and Unleash Potential!

Children ages 3-6 will explore science, technology, engineering, art and math through fun and highly educational activities.

All campers will experience our exciting enrichment classes including chess, horseback riding, in-house field trips and more!

Choose the days or weeks that work best for you with both half-day and full-day options available.

Our Summer Camp Program is a thrilling adventure where children ages 3-6 spend their summer with friends while exploring the world around them. Through engaging activities in academics, coding, nature, and more, we foster a love of learning in a fun and supportive environment.

Hands-on Learning for Little Minds:

- **STEAM Fun:** Dive into the exciting world of Science, Technology, Engineering, Art, and Math with hands-on projects that spark creativity and critical thinking.
- **Coding Adventures:** From interactive pre-coding activities to using Bee-Bots and exploring Scratch Jr., we introduce young minds to the fascinating world of computer science.
- **Nature Exploration:** Discover the wonders of the natural world through outdoor adventures, nature walks, and hands-on experiments.
- **Enrichment Galore:** Explore your child's interests with a variety of enrichment classes, including art, chess, and ceramics along with engaging in-house field trips.
- **Creative Movement:** Enjoy outdoor fun with sports, water play, and field day activities.

Join us this summer for an unforgettable experience of learning, growth, and fun!

This summer, your child will:

Explore the natural world: Learn about pollution and conservation, become an environmental steward, and gain hands-on nature experiences.

Embrace STEM: Dive into coding and robotics with Dash & Dot, Scratch, and more. Develop critical thinking, creativity, and problem-solving skills. Explore digital photography.

Encounter animals: Care for our chickens and rabbits, and witness the miracle of life by hatching chicks.

Maintain academic skills: Participate in engaging activities to enhance reading, writing, and math.

Enrichment Activities: Chess, Suzuki violin, ceramics, in-house field trips, and more!

Prepare your child for the future with a summer program that fosters a love of learning and a respect for our planet.
